Dance Floor-	
15x15 faux oak	\$350
21x21 faux oak	\$425

Decorative Options

The support poles are the least attractive element of any event tent; Artful Shelter has developed the following options to soften and warm up their appearance.

Curly Willow/Decorative Branches: Placed at the base of each pole in custom holders, this inexpensive option does more than anything else in turning the support poles into something beautiful. Highly recommended!

Pole Drapes: This is another great option if you want to warm up and soften the look of the poles. We are working on several new colors, so check with us when you are ready to revere your tent for the latest selections.

Capacity Guidelines

Formal Seating - All guests seated together around 60" tables with plenty of room to move between tables.

Cocktail Gathering - Guests are not seated at all but moving about using tall cocktail tables for drinks and finger food.

Usable Sq. Footage - Floor space with at least 7' of ceiling height.

Capacity guidelines are based on placing most catering functions into an auxiliary tent. If the serving line and bars are placed in the main tent, the capacity will be reduced correspondingly.

As a general rule, a dance floor will take up the space of (4) 60" round tables. A typical stage will take up space for another (3) 60" rounds.

Additional Fee

Set-up/take-down fee \$75

We are an official host location for Artful Shelter tents. These tents are designed and fabricated in Asheville, NC. Please go to www.artfulshelter.com for more information.
